PROFILE SUMMARY

Senior Frontend Developer with 5+ years of experience building scalable enterprise applications using React 18, Next.js, TypeScript, RTK Query, Redux Toolkit, DevExtreme, and TailwindCSS.

Specialized in enterprise dashboards, data-rich UI components, i18n (Arabic/English) and RTL support, secure UI architectures, and high-performance SPA development.

Strong expertise in AEM-style headless content integration, REST APIs and maps, performance optimization, and CI/CD & Docker workflows.

Frontend architecture, team mentoring, and cross-browser compatibility expertise.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer – (TCS) | Riyadh, Saudi Arabia

[Feb 2026 – Present]

- Leading frontend development for enterprise-grade platforms on-site for Public Investment Fund (PIF), delivering scalable and high-performance web applications.
- Architecting and developing dynamic applications using React.js, Next.js, and TypeScript, ensuring modular, maintainable, and reusable codebases.
- Building and optimizing server-side rendering (SSR) and static generation in Next.js to enhance performance, SEO, and user experience.
- Integrating RESTful APIs and managing real-time data flows for dynamic workflows.
- Designing responsive, accessible, user-centric interfaces aligned with UI/UX standards.
- Developing secure dashboards, authentication mechanisms, and role-based access systems.
- Collaborating with cross-functional teams across multiple projects, contributing to scalable frontend architecture and best practices.
- Driving code quality through reviews, optimization, and adherence to industry standards.
- Designed responsive, accessible UIs and integrated RESTful APIs for real-time workflows.
- **Implemented secure dashboards, authentication systems, reporting, and live updates.**
- Contributed to frontend system architecture and best coding practices.

Senior Frontend Developer - BITS | Riyadh, KSA

[Aug 2023 – Feb 2026]

- Achitecting and maintaining a React 18 + Next.js enterprise platform used across multiple business modules.
- Implemented i18n with Arabic/English, full RTL support, locale-aware date/time formatting, and dynamic content loading.
- Built data-driven dashboards, charts, KPIs, reports, PDF/Excel exports, and global search workflows using DevExtreme & custom components.
- Contributed to architecture decisions, coding standards, design system, and reusable component libraries using shadcn/ui + TailwindCSS.
- Ensured performance budgets, accessibility compliance, and cross-browser stability.

Software Engineer - Codehub Systems | UK Base Company**[Aug 2023 – March 2025]**

- Built high-performance frontends using React, Next.js (SSR/SSG) and TypeScript.
- Improved SEO & load times through optimized server-side rendering pipelines.
- Integrated complex RESTful APIs and collaborated with backend teams on API design.
- Implemented secure token flows, CSRF protection, and session handling.
- Deployed applications using Docker & Azure DevOps CI/CD pipelines.
- Participated in Agile ceremonies: standups, sprint planning, retrospectives.

Front-End Developer - Relymer Group | Islamabad**[Aug 2022 – Aug 2023]**

- Refactored legacy systems into modern reusable React components.
- Built responsive UI with TailwindCSS & MUI, improving UI performance. Integrated third-party APIs to enhance application functionality.
- Integrated third-party APIs and implemented secure data flows.

Frontend Developer - FlyingColour | Dubai**[Feb 2022 – Aug 2022]**

- Debugged and optimized front-end performance for enterprise software.
- Contributed to new feature development using React and API-based workflows.
- Participated in daily standups and Agile processes.

Frontend Developer - Collaboration Yard | Karachi**[Mar 2021– Sep 2021]**

- Built responsive React frontends and translated Figma designs into production UIs.
- Maintained code quality through structured reviews and best practices.
- Applied best coding practices and conducted code reviews to ensure quality.
- Attend daily standup to share progress and discuss any blockers.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, NodeJs
- **Frameworks/Libraries:** React 18, Next.js 15, Redux Toolkit, RTK Query, React Router, DevExtreme, shadcn/ui, TailwindCSS, Material UI, Bootstrap
- **Data & Visualization:** Chart.js, Highcharts, D3.js (working knowledge), DevExtreme charts, PDF/Excel/CSV export
- **Tools/Platforms:** GitHub, Bitbucket, Azure, Docker, Vercel, Netlify, cPanel, Firebase
- **Architecture & Other Skills:** AEM-style headless content integration, i18n/RTL, SEO, CI/CD pipelines, REST API Integration, Performance Optimization
- **Database:** MySQL
- **Other:** Agile/Scrum, Project Deployment, Performance Optimization

PROJECTS

PIF (Cycle Platform, Together, PartnerHub)

Contributed to developing responsive UI, integrating APIs, and enhancing performance across multiple PIF platforms while collaborating with cross-functional teams.

Content Catalyst - AI Research Platform

- Built frontend for an AI-powered platform for document ingestion (PDF/PPT/DOC).
- Implemented chat-based AI summaries and UI workflows for large data files.
- Application deployed using Docker + Azure DevOps pipelines.
Link: <https://contentcatalyst.com>

Flyingcolour:

- Enhanced user experience and performance by developing admin features and integrating APIs. Collaborated with global teams to deliver a proprietary product.
Link: <http://flyingcolour.online>

Collaboration Yard:

- Built interactive UI workflows for teachers & students, integrated live session modules.
Link: <https://app.collaborationyard.com>

OneHubPlace:

- Built an HR management system with portals for personnel, holidays, and task management.
Link: <https://onehubplace-app.azurewebsites.net>

EPR: (Employment Processing Resource)

- Built UI components for government job portals and processing workflows.
Link: <https://epr.org.pk>

EDUCATION AND QUALIFICATIONS

Bachelor of Computer Science (Software)

Abdul Wali Khan University | Mardan, Pakistan.

[2017 – 2021]

- **Final Year Project:** E-commerce Store (Laravel, MySQL, Bootstrap)

KEY TRANSFERABLE SKILLS

Problem Solving: Troubleshoot and resolve complex technical issues efficiently.

Team Collaboration: Experienced in cross-functional teams and Agile environments.

Adaptability: Quick learner, capable of mastering new technologies.

Commercial: Strong verbal and written skills for technical and non-technical stakeholders.

Attention to Detail: Deliver high-quality, bug-free code consistently.
